... = data not available at cutoff date; | = marks break in series; - = magnitude equals zero; 0 = magnitude is less than half of unit employed; \* = provisional/preliminary/estimate/budget figure;  
cif = cost, insurance, and freight; fob = free on board; CPI = consumer price index; GDP = gross domestic product; GNI = gross national income; IMF = International Monetary Fund; US = United States.

a The large variation in the annual population growth rate over the years is due to the combination of changes in the number of visitors and out-migration.

b Covers all wage and salary earners from all islands.

c Refers to ownership of dwellings.

d Derived using consumer price index (CPI) of all items, food CPI, total weight, and food CPI weight.

e Figures exclude nonbudgetary surplus/deficit; hence, the item refers to overall budgetary surplus/deficit.

f Includes expenses for housing and community amenities and other services.

g Includes Hawaii.

h Excludes Hawaii.

i Figures were originally expressed in New Zealand dollars and were converted to US dollars by applying the average exchange rate for the period. The significant decrease in the 2006 level was due to the settlement of the Italian loan held by Servizi Assicurativi del Commercio Estero (SACE) [ex Express Cook Islands Agents (ECIL) Limited guarantee liability], offset in part by adverse exchange rate movements over the first 6 months in 2006.

j Refers to total debt outstanding and disbursed as a percentage of GDP.

k Refers to debt service as a percentage of total exports as reflected under Direction of Trade.
