1 Ministry of Agriculture

Pae Angaanga Tanutanu

1.1 Introduction

UNDER the Te Kaveinga Nui - National Sustainable Development Plan (NSDP 2016 - 2020), Agriculture is the lead Agency and responsible for achieving GOAL 10: "Achieved food security and improved nutrition, increase sustainable agriculture and improve Biosecurity.

GOAL 10 has 4 Monitoring Indicators -

- INCREASE IMPORT SUBSTITUTION - Indicator 10.1: Percentage of all food purchased that is produced locally,
- INCREASE FOOD PRODUCTION - Indicator 10.2: Total Food Production,
- RETAIN ARABLE LAND - Indicator 10.3: Total land used and reserved for Agriculture,
- IMPROVE BIOSECURITY - Indicator 10.4: Numbers of reported biosecurity outbreaks.

Our Agriculture Programs also provide supporting and development roles to the following Goals

Goal 2 – Expand economic opportunities, improve economic resilience, and productive employment to ensure decent work for all e.g. in the areas of Agri Farming & Economics, Agri-Business, Agri-Marketing and Trade, etc.

Goal 3 – Promote sustainable practices and effectively managed solid and hazardous waste especially - In the area of managing Agriculture Chemicals, Fertilizers, Pesticides and Pesticides Act, Organic Mulching and Organic Bulking for soil improvement, cover crop, Biocontrol and Bioagent promotion, etc.

Goal 4 – Sustainably manage water and sanitation e.g. In Agriculture Water requirements, Irrigation for crops, water for Livestock, Hydroponic water, etc.

Goal 7 - Improve the health of all and promote healthy lifestyle. Agriculture provide support in – Food safety (Fruit & Vegetables, etc.) from Pesticides contaminants, CODEX, identify/promote nutritious food crop varieties, Vegetables, Roots & fruits – e.g. Turmeric, Ginger, Taro, Kale, Broccoli, Amaranths, Belle, Guava, and many local fruits, high in Vitamins, etc.

Goal 9 – Accelerate gender equality, empower all women and girls, and advance the rights of youth, the elderly and disabled. – Promoting Ornamental & Horticulture Production, Plant products Crafts, processing / value adding.

Goal 11 - Promote sustainable land use management of terrestrial ecosystems & protect biodiversity. e.g. Conserve Food Crops Genetic Resources, Our Food Variety collection, Contour growing, Alley Cropping, Organic Bulking, Cover Crops, Traditional knowledge Farming, Lunar Cycle Methodology, etc.

Goal 13 - Strengthening resilience to combat the impacts of climate change and natural disaster e.g. Growing crops resilience to Climate change – those adapted to higher Saline Water and Seawater intrusion into Atoll freshwater-lens, high temperature tolerant crops, Disease resistant food crops, like Ducasse Banana varieties, etc.

Vision

Our Vision - Healthily soil, healthy food, local, and appropriate while sustaining our common livelihoods.

Our Mission - advancing our common threads of agriculture in food security and nutrition and livelihoods, where we transform our sector to being innovative resilient, trade collaborative empowered for future generations to enjoy healthy living.

Significant Achievements & Milestones

1. Capacity assessment for Ministry
2. Draft Agriculture Powers Bill 2019
3. Endorsement by Cabinet of National Agriculture Policy 2017-2021 and Ministry of Agriculture Strategic Plan 2017-2020

1.2 Outputs and Key Deliverables

OUTPUT 1: Research and Development

- Provide guidance / support to all farmers including women groups growing horticulture agriculture through:
 - Technical advice and guidance
 - Horticulture support (Fruits, Vegetables, Ornamentals, Hydroponics, Organic production, etc).
 - Applied and adaptive research, small trials – varietal testing, export trials, basic soil testing and assessment,
 - Pest and Disease control and identification.
 - Demonstrations on the use of: tools, new equipment, small machineries, irrigation accessories, new methodologies of applying pesticides, methodologies to make trees fruit at the offseason, etc.
 - Administering Food Crops and Plant Genetic conservation and Protection in collaboration with FAO Plant Genetic Resources.
 - Crop Breeding / Improvement to Food Crops Genetic material
 - Agro – Forestry, Erosion control and contouring cultivation and protection.
 - Soil and Water Management
 - Nursery and Plant Propagation
- Administering of agricultural chemicals and livestock medicine, and other Pesticides.
- Register of Pesticides
 - Support and training in Plant Protection – Pesticide Workshops, Fertilizer use and Nutrition of crops and others.
 - Representation in various Agriculture International Organizations

1.3 Staffing Resources

2 Office of the Public Expenditure Review Committee & Audit

2.1 Introduction

Our Office plays a vital role in achieving Goal 16 of the National Sustainable Development Plan (NSDP) "Promote a peaceful and just society and practice good governance with transparency and accountability. Our Office's outputs are aligned to our vision of "making a difference to the lives of Cook Islanders" by:

1. Strengthening the accountability, transparency and integrity of government and public sector entities.
2. Demonstrating ongoing relevance to our citizens, Parliament and stakeholders
3. Being a model organization through leading by example

Significant Achievements & Milestones

We issued our Audit Report on 28 September 2018 for the 30 June 2018 Cook Islands Government (CIG) Financial Statements.

We received the 30 June 2015, 30 June 2016 and 30 June 2017 CIG Financial Statements from MFEM Treasury Division for auditing on the 28 September 2018. We aim to issue our Audit Reports for all three years on the 30 September 2019.

We are currently on track to have up to date audited CIG Financial Statements by 30 June 2020. My Office is in position to have the 30 June 2018 and 30 June 2019 financial statements audited by June 2020.

The Office's objective for the current 2018/19 financial period is to have all Ministries, Offices, State Owned Enterprises and Agencies 30 June 2018 Financial Statements (FS) audited by 30 June 2019.

- 2014 Financial Statements (100%) All completed

2.2 Outputs and Key Deliverables

OUTPUT 1: Consolidated Financial Statements of Government

The purpose of this output is to provide a quality and timely audit report on the Cook Islands Government Consolidated Financial Statements.

This includes the audits and reviews of all the Ministries, Outer Island Administrations, State Owned Enterprise and Crown Agencies which make up the components of the Cook Islands Government Consolidated Financial Statements. The audits and reviews of the individual components are addressed in Output 2.

The Director of Audit expresses an opinion on whether the Cook Islands Government Financial Statements are prepared, in all material respects, in accordance with International Public Sector Accounting Standards (IPSAS). In addition, a management report is also issued highlighting any issues that the Financial Secretary, Minister Responsible and management team need to be aware of.

2.3 Staffing Resources

3 Business Trade and Investment Board

3.1 Introduction

BTIB ensures that their role aligns and meet its responsibilities to Govt under the NSDP and more importantly to meet the Objectives and Functions of the organisation under the DIA 1995-96. The DIA Act provides for "An Act to promote trade, investment and business in the Cook Islands, promote and monitor foreign investment in the Cook Islands, and to encourage the participation of Cook Islanders in trade, investment and business by the establishment of a Development Investment Board".

Vision

Within the "Te Kaveinga Nui" (NSDP) the BTIB adopts the following vision from its Strategic Plan: 2018-23 "Economic growth and prosperity for the people of the Cook Islands". We hope that this vision encapsulates the economic development goals of the Cook Islands.

Achievements

Output 1. Business Enterprise - A total of 90 individuals and businesses were supported through loans, accounting training and mentoring. More Businesses are using the service.

Output 2. Trade and Marketing - BTIB organised and participated in a total of 6 local and 2 overseas (Shanghai and Hawaii) trade events during 2018. The BCI sponsored Trade Event during the Te Maeva Nui celebrations is always the busiest with at least 50 small vendors trading crafts, jewelry, food, clothing and body lotions like oils. These vendors include women's groups and individual businesses from Rarotonga and the Pa Enea.

Output 3. The launch of the BTIB website in 2018, led by the Foreign Investment Division and this is a milestone for BTIB as the website allows our clients to apply online for Foreign Enterprise and Short Term Business Registrations and pay online. Subscribers to Business Gazettes can also apply and pay online.

Output 4. Monitoring and Compliance - For this financial year July 2018 to date 38 site visits were conducted, 35 Annual Returns filed, 57 work and residency permits issued, 6 complaints with 4 being resolved and 2 pending and 4 investigations.

Output 5. Corporate Services - BTIB received an unmodified audit report from CIs Audit Office for financial year 2016/17. This was another milestone achievement and a good year for BTIB following the previous financial year. The BTIB Strategic Plan for 2018-2023 was developed and completed in 2018. The Re-aligning of BTIB Organisational Structure was also developed and completed in 2018/19.

3.3 Staffing Resources

4 Cook Islands Investment Corporation

4.1 Introduction

The Cook Islands Investment Corporation (+) is responsible for administering and managing the crowns assets and shareholding interest. The corporation receives resources from the Government (net appropriation) and trading revenue.

CIIC's net appropriation labeled 'Asset Management', funds the maintenance of government occupied buildings, maintenance personnel, BSA and BCI stadium maintenance and operations, building insurance, and land leases. Trading revenue funds the operations and maintenance of government's residential and commercial portfolios.

CIIC receives sources from the Government, trading revenue and official development assistance. Total resourcing and output funding and official development assistance is shown in the tables below.

Vision

Ta'anga'anga e te akono tau tikai i te au apinga puapinga a te katoatoa no te akameitaki'anga i te ora'anga o te iti tangata Kuki Airani. ("Effective and efficient public assets that improve the wellbeing of Cook Islands people.")

By efficient and effective we mean well managed and operated consistent with modern commercial practices and good governance principles. By public assets we mean land, properties, infrastructure and utilities that are owned by the Crown, for the benefit of the Cook Islands people. They include:

- Crown and leased land, Government houses and buildings,
- the Ports and Airports of Rarotonga and Aitutaki,
- Te Aponga Uira Power Authority and Aitutaki Power Supply,
- The Bank of the Cook Islands,
- Investments in reticulated Water and Sanitation,
- Avaroa Cables,
- Punanga Nui Market; and
- Seabed mineral assets.

By improving the wellbeing of Cook Islands people we mean adding value to the lives of Cook Islands people and meeting Government's

Social policy objectives.

In achieving our vision we recognize two important elements of our business defined by two distinct component of the corporation.

- 1) Lead the governance, growth and development of crown enterprises in the effective and efficient delivery of services to the public, and
- 2) Lead the effective development and maintenance management of crown assets thus contributing towards ensuring the sustainable improvement of standard of living for all Cook Islanders.

Achievements

- Planning and initial implementation of a sustainable corporate strengthening and realignment of the Cook Islands Investment Corporation (CIIC) to better govern and manage the Cook Islands assets and investments, including the separation of CIIC's activities into governance of Crown Controlled Entities and the development, management and maintenance of crown assets.

4.3 Staffing Resources

5 Ministry of Corrective Services

5.1 Introduction

The Ministry for Corrective Services is responsible for ensuring that offenders are managed securely and safely within the prison and in community. It will ensure that offenders are held accountable for their offending and aim at reducing reoffending through rehabilitation and reintegration programs. This will be a modern institution that engenders trust and confidence through effective, transparent and responsive framework where justice and information is accessible to our community.

Vision

1. The vision for the Ministry for Corrective Services is ""For A Safer Cook Islands"
2. The mission is "To successfully rehabilitate and reintegrate offenders back into society through positive changes in their lives with the support of our stakeholders, our families and our wider communities."
3. Our goal is keeping Cook Islands safe and continuing making changes in lives
4. The ministry's priorities are:
 - a. Safety
 - b. Rehabilitation and Reintegration to reduce reoffending
 - c. Investing in our people
 - d. Improving our legislation, policies and procedures.

Significant Achievements & Milestones

1. The Probation Service and the Secretary for the Ministry for Corrective Service is now located at the Tauranga Vananga.
2. The Probation Service now has a private interview room for offenders.
3. Out of the McDermott and Matapo Prison report, 13 of the 47 recommendations have been achieved and some partly.

5.3 Staffing Resources

6 Office of Crown Law

Te Akinanga o te Ture

6.1 Introduction

The Crown Law Office was established by the Crown Law Act 1980 ("the Act"). The "Principal Functions of the Office" are set out in section 10 (as amended) of the Act, which states:

1) The principal functions of the office shall be to advise the government of the Cook Islands on legal matters that may be referred to it by the Queen's Representative, Cabinet, the Prime Minister, a Minister, the Ombudsman, a Head of Department, or Statutory body or Corporation.

(2) The Attorney-General shall have the power, exercisable in his discretion, to institute and conduct civil or criminal proceedings and may discontinue any criminal proceedings whether instituted by him or otherwise

In addition to legal advice and litigation (both criminal prosecution and civil proceedings), the Crown Law Office is also involved in the drafting of legislation, in particular (at this stage) the management and oversight of this.

The advice that the Crown Law Office gives to government covers a very wide range of issues, many of which are novel and complex. The advice can relate to minor issues as well as very significant issues relating to matters involving millions of NZ\$. Also, issues relating to the Constitution, the working of government and the sitting of Parliament. The Crown Law Office also reviews all Requests for Tender (made pursuant to the Procurement Policy) and government contracts before signing.

The Crown Law Office prosecutes serious criminal offences before Judges of the High Court, and also some less serious offences which raise complex or novel issues of law or fact before Justices of the Peace. The Crown Law Office also provides advice and guidance to the police in a wide range of cases. The Crown Law Office also acts for the Crown in appeals before Judges of the High Court, the Court of Appeal and where appropriate in the Privy Council. The Crown Law Office also deals with requests for mutual legal assistance by foreign states.

The Crown Law Office acts for Ministries and the Attorney-General in civil litigation brought on behalf of the government and also in which the government is the defendant. The litigation covers a very wide range of claims, involving many different and varied aspects of civil law. The Crown Law Office also deals with certain matters in the Land Court where appropriate.

The Solicitor-General is one of the four members of the Central Agency Committee (CAC) and one of the two members of the Tender Committee. The Solicitor-General is also one of the three members of the High Court Rules Committee, and is the Chair of the Land Agents Registration Board. The Solicitor-General is a member of the Anti-Corruption Committee and the present Chair.

Vision

The Crown Law Office will provide legal advice to government to a very high standard and in a timely manner. Where it is felt appropriate, the Crown Law Office will instruct external counsel in areas where specialist knowledge or experience will assist in best ensuring that the advice is given to the very high standard intended. The Crown Law Office intend to create a reputation whereby it is acknowledged that getting timely advice from the Crown Law Office is the appropriate course to be taken in relation to all matters in the remit of the Crown Law Office. By doing so, the intention of the Crown Law Office is to provide advice at a time at which it is most effective and so as to ultimately ensure that there are cost savings to the government in the long term. In doing so it is acknowledged that the Crown Law Office will need to put systems in place so that the workload can be managed effectively amongst the small numbers of lawyers available.

The Crown Law Office will prosecute all serious criminal cases in the High Court to a very high standard, and will act as ministers of justice in the course of doing so. The Crown Law Office will continue to represent the Crown in appropriate matters before Justices of the Peace, in all matters before the Court of Appeal and where appropriate before the Privy Council. The Crown Law Office will continue to assist the police where appropriate, and intend to draft policies and procedures so as to improve the quality and standard of all prosecutions.

The Crown Law Office will act for the government in civil proceedings to a very high standard. The Crown Law Office will make sure that all such matters are dealt with appropriately so as to ensure the best possible outcome, including by way of settlement and where necessary in litigation before the High Court, and thereafter any appeals.

The Crown Law Office will play a vital role in the drafting of legislation. Although the drafting of legislation is presently undertaken by the New Zealand Parliamentary Counsel Office (NZPCO), and where appropriate by consultants, the intention is that the Crown Law Office will take over the drafting of legislation so that there is a consistent approach to all legislation passed going forward. This will require the training of Crown Law Office counsel so as to be able to undertake this task and to do so to a high standard. It will also almost certainly require the recruitment of additional lawyers due to the large workload involved.

The Crown Law Office will be heavily involved in the intended consolidation of legislation to take place over the next few years (funded by New Zealand), and also intend to set up procedures where by the legislation intended to be passed by Parliament in a particular year is identified by Ministries well in advance and timetabled accordingly for that year. This will ensure that the drafting of the legislation to be passed in each particular year can be properly planned and managed.

Significant Achievements & Milestones

Advice - The Crown Law Office advised a total of twenty six government entities in 2018 in numerous types of matters, some of which involved complex and/or novel issues and significant sums of money.

Litigation - In 2018, nine police matters were set down for jury trials that were conducted by the Crown Law Office, two of which resolved on morning of trial with guilty pleas and the other seven trials resulted in the defendants being found guilty and one not guilty. The trials involved, child sexual offending, adult sexual offending, drugs, and serious violence including a stabbing that involved life threatening injuries.

The Crown Law Office was also involved in the provision of investigatory advice and running the prosecution of a man who was responsible for the death of his nine year old grandchild. This resulted in the Crown advising the police through the initial investigation and conducting the prosecution which resulted in a guilty plea and a term of six years' imprisonment being imposed in November 2018. The Crown Law office was also represented the Crown in three criminal appeals in the Court of Appeal, including a Crown appeal against the sentence of a drug offender which resulted in an increased sentence being imposed.

The Crown Law office was involved in two election petitions (Pukapuka and Mauke) both alleging that votes had been wrongly counted/disallowed by the Electoral Office. The Crown Law Office was successful in its argument in the Mauke petition as to the proper interpretation of section 7 of the Electoral Act 2004. The Crown Law Office was also asked by the Court of Appeal to provide assistance in the Rakahanga petition appeal in relation to guidance regarding appropriate process/procedure regarding outcomes.

Legislation - The Crown Law Office has successfully managed the drafting of a number of Bills, including the Infrastructure Bill and the passing of a number of Acts including the Welfare Amendment Act 2018, and Income Tax Amendment Act 2018. The Crown Law Office has also been extensively involved with the provision of legal advice around immigration law reform and the new seabed and minerals Bill.

Other - The Crown Law Office successfully hosted the Annual Pacific Islands Law Office Network (PILON) meeting from 9-11 October 2018. About 60 overseas participants and 10-15 locals attended the meeting. The Crown Law Office was commended by participants as to the organisation and hosting of the meeting, the planning of which had taken many months and had required staff to devote a considerable amount of their time outside of office hours.

7.3 Staffing Resources

8 Ministry of Education

Maraurau o te Pae Apii

8.1 Introduction

To provide an education system in the Cook Islands, with an emphasis on:

- providing education to all learners
- the use and preservation of the Cook Islands Maori language, culture, perspectives and aspirations
- equitable access to education of high quality
- a high level of community involvement in determining educational outcomes; and
- Ensuring that everyone involved in the education system is treated with dignity, respect and understanding.

Vision

- The Ministry of Education’s vision as a government agency is:
- The Ministry of Education values the unique nature of the Cook Islands.
- We contribute to the effective governance of our country and are recognised as leaders in education throughout the region.
- The Ministry of Education provides a dynamic and professional environment which promotes and supports lifelong learning through the provision of quality services.
- This Ministry vision works to support the vision of the Education Master Plan which is to “build the skills, knowledge, attitudes and values of Cook Islanders to put their capabilities to best use in all areas of their lives”.

This vision continues to guide the direction of the Ministry and is aligned to the broad strategic priorities, the new National Sustainable Development Plan (NSDP) and the manifesto of the current government as well as relevant regional and international goals to which the Cook Islands is a signatory. The Ministry of Education Statement of Intent (2015-2019) identifies current priorities of the Ministry’s work.

Achievement

The Ministry continues to push the profile of Cook Islands Maori in the formal education system and across the tertiary space. Considerable work continues in developing Maori language resources for primary schools. Our NCEA Maori teachers continue to be leaders in writing and compiling of NCEA external standards for all schools who offer Cook Islands Maori standards, in New Zealand and the Cook Islands.

The Diploma of Vernacular Languages (Cook Islands Maori) delivered through the University of the South Pacific continues, with papers successfully delivered in the second semester of 2018 and summer school.

Learning Development opportunities continue to be rolled out across schools by the Learning & Teaching team. Careers Development and Pastoral Care support has been well received with the introduction of these new positions at the Ministry. The work of the Inclusive Education team is increasing. While a small team of only two advisors they are committed to strengthening early intervention programmes to ensure all learners have the best possible opportunities and available for all schools. Training and development opportunities for teacher aides is a regular feature of the IE teams work plan, also incorporating pastoral care support to ensure a holistic approach is always considered.

Support to tertiary students through Te Reinga Akatauanga’anga (the scholarships programme) has been maintained effectively. The introduction of the Starter Pack options, both domestically and internationally, has seen an increase in support being offered. We continue to receive a high number of applications and pleased to see the number of returning Cook Islanders taking advantage of the one-off grants available through the scholarship programme.

Following a recent audit review, the Ministry maintains an unmodified audit status for the 2017/2018 financial year. Credit to our financial team who has worked tirelessly with all divisions of the Ministry and our schools to ensure financial management is everyone’s responsibility. To add to this, ITC systems across the Ministry and all schools continue to perform exceptionally well and to the highest level of quality. The Ministry prides itself on the value of our ITC systems and support, being able to tend to maintenance and support requests quickly.

Strengthened partnerships with key government agencies continue and are valued, including collaboration with regional partners and the New Zealand Ministry of Education counterparts. The success of the NCEA review visit in December with our secondary schools speaks volumes on just how important our contribution to NCEA is valued. Our involvement with the writing of the Pacific Regional Education Framework (PacREF) launched in October 2018, solidifies our contribution to education in the region.

8.2 Outputs and Key Deliverables

OUTPUT 1: Taku Ipukarea Kia Rangatira

Taku Ipukarea Kia Rangatira is intended to strengthen a learner's identity as a Cook Islander. It mandates the MoE to provide quality programmes that promote Maori language and culture, research and use appropriate learning, teaching and assessment techniques for Cook Islands learners including our young people. The Ministry supports the growth of cultural and creative industries in the Cook Islands, and challenges us to ask how our

programmes and initiatives contribute to strengthening Cook Islands identity. In fulfilling international obligations, the MoE seeks to be recognised as an educational leader in the country and the Pacific region through demonstrating development initiatives in education.

OUTPUT 2: Learning and Teaching

Educational success can be enhanced by improving the quality of teaching and the quality of educational leadership. This output focuses on improving teaching and learning across all aspects of the education system and for all learners. In particular, we focus on improving the core skills of literacy and numeracy and on lifting the achievement of those groups of learners who are not achieving as well as their peers.

9.3 Staffing Resources

10 Ministry of Finance and Economic Management

10.1 Introduction

MFEM is a key institution of the Crown and fulfils a pivotal role to government in achieving its priorities. As a central agency of government, MFEM strives to provide robust advice to the government and assist it to implement its policy objects in the most efficient and effective manner possible. The ministry has moved beyond its financial accounting role of the Crown to now be firmly placed as the premier adviser to the Government on key financial and economic issues facing the country.

Vision

MFEM shall be a competent and professional organisation, inspiring public trust and confidence to meet evolving challenges.

Significant Achievements & Milestones

Planning Division

- Drafting and acceptance of the first Medium Term Fiscal Framework

Treasury

- 2018/19 Budget Appropriation produced and passed in October was a significant achievement amidst the earlier than expected General Election
- MFEM 2018 Financial Audited and up to date with an Unmodified Audit Opinion, as has been the case for past the 10 years
- Updated the Cook Islands Financial Policies and Procedures Manual 2019, last time that was updated was in 2014
- Implementing of a new Debt Management System in collaboration with the Commonwealth Secretariat, this will raise the credibility of debt forecasting and information availability;

Revenue Management Division

- During the past three years total revenue collected has increased from circa \$95 million New Zealand Dollars (NZD) in 2016 to circa \$115 million NZD in 2018 – an increase of over 21 percent.
- The Cook Islands Customs Service became the second non-World Trade Organisation agency to accede to the International Convention on the Simplification and Harmonization of Customs Procedures (the Revised Kyoto Convention).
- The creation of a ring fenced AEOI (Automatic Exchange of Information) system in order to meet recognised international standards. This is a first of its kind worldwide.

Development Coordination Division

- Green Climate Fund National Implementing Entity Accreditation
- ODA conversion 75%. As a result 100% utilisation of New Zealand triennium funding
- Pa Enea Action for Resilient Livelihoods (PEARL) - First approved programme under the Adaptation Fund and as a National Implementing Entity. Currently under implementation.
- Completion of large infrastructure projects - Apii Nikao School Project, Tereora College Project
- Significant increase in support to the grass-roots community through small grant facilities including India, Korea, Global Environmental Facility.

OUTPUT 5: Development Coordination

The Division is directed by the Cook Islands Development Partner Policy and reports to the National Sustainable Development Commission (NSDC).

The policy states that the achievement of the Cook Islands development outcomes will be supported by the effective and efficient use of Official Development

Assistance, aligned to the National Sustainable Development Plan (NSDP).

The Division fosters relationships with a broad range of development partners to broker coordinated arrangements. These activities are increasingly delivered through diverse partnerships at a variety of levels including local government, civil society, and private sector and national government agencies.

The Division seeks to provide high quality development advice to partners including Ministers, government agencies, committees, community groups, private interest groups and donors.

The Division contributes to the development of concessional loans and blended financing arrangements with partners like the Asian Development Bank, European Investment Bank and Development Partners like the People's Republic of China.

Estimated Official Development Assistance over the coming three years along with past spends are reported in the national budget document annually. The Division produces annual financial statements which aim to produce a complete picture of Official Development Assistance provided to the Cook Islands and its allocation by sector and activity.

OUTPUT 6: Project and Procurement Oversight and Support Division

The Major Projects, Public Procurement and Project Support Division has evolved as a result of

1. Government investment in major projects without an activity management cycle in place.
2. Poor major project design and significant level of risks resulting
3. The lack of capacity of other government agencies to plan and implement major projects.
4. An anticipated influx of climate change related infrastructure project co – financed by GCF
5. The need to provide support to other government agencies to enable them to follow the TTV activity management cycle including public procurement.

It is anticipated that Te Mato Vai Water Project will be successfully completed by the end of 2019. It's likely that the option for the Muri Sanitation Project (Me Te Vai Ke Te Vai (MTVKTV)) and the Sanitation Master Plan will be completed before the end of 2019 pending the public consultation process.

This Division will complete the implementation of TMV and hand over to the corporate entity - To Tatou Vai - on completion. Once the design option for MTVKTV is complete a project management framework will be established.

The TTV activity management cycle will be the main tool for design and implementation of projects. Support to government agencies in project preparation will be provided in the form of advice on the preparation of procurement, assessments, and sourcing applicable TA. It is not intended that this Division will do this work related to TTV nor be responsible for further implementation of major projects.

TTV policy oversight and compliance will be managed by this division along with the management of procurement compliance and policy oversight.

11 Financial Services Development Authority

11.1 Introduction

The primary role of the Financial Services Development Authority ("FSDA") is captured by section 14 of the Financial Services Development Act 2009 ("FSD Act") which sets out its objective as "to encourage, promote and develop the Cook Islands financial services industry so as to achieve sustained growth, in a manner which is economically beneficial, socially responsible and reputable." The "financial services industry" is defined in section 2 of FSD Act to include all business carried on under the Trustee Companies Act 1981-81 (now repealed and replaced by the Trustee Companies Act 2014), the Banking Act 2003 (now repealed and replaced by the Banking Act 2011), the International Trusts Act 1984, the International Partnership Act 1984, the Insurance Act 2008, the Limited Liability Companies Act 2008. Financial services for the purposes of FSD Act also include business carried on pursuant to the Foundations Act 2012 and the Captive Insurance Act 2013.

Vision

To be a continued and valuable source of support for the financial services industry through the provision of funding, expertise and administration services enabling the industry to achieve consistent growth which is economically beneficial to the Cook Islands, socially responsible and enhances the Cook Islands reputation as a relevant, compliant and progressive international financial center.

Significant Achievements & Milestones

"(1) 2019 is the 10th year anniversary of the FSDA. Throughout the past 10 years it has continued to support the financial services industry and in particular the Trustee Companies offshore business, a business that, despite the significant challenges posed by international compliance and regulation and competing jurisdictions, has continued to grow its revenues over the past 3 years and returned in excess of \$3.5 million in fees and taxes to Government in 2017. There are currently eight licensed Trustee Companies, the highest number at any given time since the enactment of the Trustee Companies Act in 1981. Despite the limited budget and resources allocated to the FSDA over the years, it has continued to make a contribution to the offshore industry, attempting to support it where the industry indicates such support would be most beneficial;

(2) The FSDA played a significant role in the Cook Islands team responsible for the outstanding FATF/APGML Mutual Evaluation Report achieved in 2018. Amongst other things, the FSDA provided reports to the Financial Supervisory Commission on AML/CFT risk assessment and the high risk sectors in and primary money laundering threats to the Cook Islands. It drafted guidelines for Trustee Companies when assessing ML/TF risk and provided an analyses of legal person risk in the Cook Islands. An FSDA employee attended the APGML AGM in Nepal in July 2018 where the Cook Islands MER was discussed and adopted with that person making a presentation to delegates on understanding and assessing legal person and legal arrangement risk. An FSDA employee attended the FATF Plenary in Paris in October 2018 where the Cook Islands MER was formally adopted by the FATF. The FSDA's contribution and assistance to the MER was primarily funded from the FSDA's budget which did not provide for such expenses as POBOC request for such expenses were rejected in the 2018-19 budget. FSDA's contribution to the MER was at the expense of its marketing and promotion activity. The FSDA is now promoting the MER through written material on its website but also through written articles in international publications. The extent of that promotion is however restricted due to budget constraints.

(3) The FSDA has been heavily involved over the past 12 months in communicating with the EU in regards to its harmful tax practices initiative. It took the lead on dealing with the issues raised by the EU and through use of its budget funded international legal advice necessary to properly understand the technical issues and determining a course of action. The FSDA considered the EU issues to be a priority for not only the offshore

industry but the Cook Islands financial services industry generally. The funds used for the legal advice came from FSDA budget for marketing and promotion, as the legal expenses were not anticipated when budgets were set.

(4) The FSDA was a major sponsor of the Society of Tax and Estate Practitioners (STEP) Asia Conference held in Hong Kong in November 2018. The Conference is a major event on the offshore industry calendar, attended by lawyers, financial advisors and tax practitioners from around the world. A significant part of FSDA marketing and promotion budget goes to sponsoring and attending the Conference. It generates international credibility for the Cook Islands and the offshore industry as well as real interest in the financial services and products offered. Sponsorship of the STEP Asia Conference is part of the FSDA's market diversification strategy to move away from the offshore industry's heavy reliance on the USA market.

(5) November 2018 saw the relaunch of the FSDA's website following significant style, format and content changes. The FSDA now operates as Cook Islands Finance to enhance brand awareness.

12 Ministry of Foreign Affairs and Immigration

12.1 Introduction

The Ministry of Foreign Affairs and Immigration (MFAI) is the government's primary agent for advancing, and representing, the Cook Islands interests internationally, in addition to the provision of an effective national immigration service that enhances the security of our borders.

We are the specialist agency for the Cook Islands government in matters of international affairs and immigration covering the full gamut of national priorities; from the economic and political spheres right through to the social and environmental.

We lead the Cook Islands diplomatic network, a unique yet under-resourced national asset, to actively pursue opportunities for development in ways that are innovative and responsive to our unique challenges. We achieve this through utilisation of our greatest asset, our staff, to negotiate agreements, shape regional and international organisations, inform political decisions at both bilateral and multilateral levels and provide a conduit for Cook Islands government engagement with the world at large.

It is the responsibility of the Ministry to understand changes taking place internationally, provide advice to the government on the implications of those changes, and then work to protect and advance the interests of the Cook Islands and Cook Islanders.

The security of our borders and the safe facilitation of movement of peoples across these borders remains a core focus for our Ministry, as reflected in our purpose. Our security is enhanced by the strength of our working relationships with relevant sector agents, interest groups and external partners to provide capacity support, supplementation and resources where required.

Vision

Taku Ipukarea kia Rangatira - A safe and prosperous Cook Islands through excellence in foreign affairs and immigration services.

Significant Achievements & Milestones

1. Elevation and strengthening of NZ relationship – best outcomes to date yet from Joint Ministerial Forum, 2018 was 5th year (consequence of MFAI leadership and co-ordination leading up to the JMF through Wellington and Headquarters – extensive Ministerial Sector counterpart meetings); securing an additional \$13 million for Te Mato Vai Stage 1 repairs through proactive and targeted engagements with the New Zealand government at multiple times and through multiple avenues.
2. Advancement of the Final Drafting Instructions for the new Immigration legislation – through numerous consultation with various stakeholders including Cabinet, other government agencies, private sector and general public.
3. Elevation and strengthening of Australia relationship – Australia during this period committed to opening a High Commission in the Cook Islands in the months ahead and the establishment of a Pacific Office within the Australian Department of Foreign Affairs.
4. Oceans Governance – during this period, MFAI strengthened and elevated leadership in co-ordination of international engagement on oceans related issues including fisheries, sea bed minerals, and extension limits of continental shelf, BBNJ and agencies such as IMO, UNCLOS Secretariat, WCPFC and FFA.
5. Leadership of the country's fisheries regional and international engagements from the end of March 2018 through to present day as a consequence of the suspension of MMR HOM Ben Ponia. In addition to leadership of the Cook Islands engagement regionally/internationally, the role also included FFA Chair responsibilities at both Senior Officials (in the MFAI HOM) and Ministers (PM Puna). Amongst the most

significant impacts on MFAI operations was the MFAI HOM assuming travel duty responsibilities to Chair various FFA and WCPFC meetings regionally and internationally (totalling 8 weeks during this period) and the requisite MFAI personnel resourcing from most of the foreign service team at various times to pull together policy briefs for such engagements, which included 2 significant regional meeting hosting requirements in Rarotonga, compounded by a Ministry of Marine Resources inability to deliver necessary briefs due to the state of some management disarray at MMR for the duration of March through December caused by MMR HOM vacancy.

12.2 Outputs and Key Deliverables

OUTPUT 1: Pacific and Regional Affairs and Trade

The main purpose of this Output is to promote Cook Islands' interests in its relations with New Zealand, Australia and other countries and organisations in the Pacific Islands region. Key output deliverables include:

1. the maintenance and strengthening of the special relationship between the Cook Islands and New Zealand;
2. the maintenance and strengthening of the Cook Islands' close bilateral relations with other Pacific Islands countries and territories (PICTs) with particular focus on Australia, Fiji, Papua New Guinea and Samoa;
3. the active participation of the Cook Islands in regional organizations of which it is a member and the development and strengthening of relations with other regional organizations and other regional bodies where that will serve to advance Cook Islands interests.

The cross cutting nature of Foreign Affairs outputs means that it is difficult to show direct attribution to achieving NSDP goals. The regional and trade division outputs focus on policy analysis and advice; regional representation and advocacy of country positions including NSDP priorities; negotiation; and administration. The emphasis is on strategic collaboration with a wide regional network and aligning this with local stakeholders and contributing to the attainment of the NSDP Goals.

OUTPUT 2: International Affairs including protocol and diplomatic services

The main purpose of this Output is to protect and advance Cook Islands' interests in the international fora beyond the Pacific region, Australia and New Zealand. Towards that end, key objectives include:

- Establish and maintain beneficial bilateral and multilateral relations that provide the opportunity and potential for drawing on international support for advancing national policies and positions;
- Efficient facilitation of cooperation offered by partner countries and multilateral organizations ensuring that assistance offered is matched with pre-determined development needs of the Cook Islands; and
- Effective participation and engagement by the Cook Islands at international gatherings, engagements and responses that showcase the Cook Islands as an effective and informed leader promoting Cook Islands interests and offering the region and international community home grown solutions.
- High quality protocol and diplomatic services extended to visiting foreign dignitaries to the Cook Islands and protocol advice and support extended to other Ministries and agencies of Government in relation to important national events;

The cross cutting nature of Foreign Affairs outputs means that it is difficult to show direct attribution to achieving NSDP goals. The international division outputs focus on policy analysis and advice; representation and advocacy of country positions including NSDP priorities; negotiation; and administration in international engagements beyond the Pacific region. The emphasis is on strategic collaboration with domestic stakeholders to inform bilateral engagements with countries beyond the Pacific region in a manner which contributes to the attainment of the NSDP Goals.

14 Ministry of Health

Te Marae Ora

14.1 Introduction

Te Marae Ora (TMO) Ministry of Health leads the health sector in the Cook Islands as the policy advisor to government, major health service provider and regulator of health professionals and services in the country.

Vision

Our vision is for "All people living in the Cook Islands living healthier lives and achieving their aspirations." Our mission statement is "To provide accessible, affordable health care and equitable health services of the highest quality, by and for all in order to improve the health status of people living in the Cook Islands.

Significant Achievements & Milestones

Te Marae Ora (TMO) received an increase in funding (\$1.2 million) in 2018/19 which has contributed to plans to lift health system capability beginning with the restructure of the organisation at Executive level to better reflect population health need, and the shifting of resources to community settings ie primary care and public health/preventative care thus focusing on keeping people well and healthy. This has involved structured workforce development to match future services planning, equipping service areas with the appropriate tools to work effectively, and ensuring there adequate infrastructures to provide quality health services to tackle NCDs and communicable diseases (including vector borne disease such as dengue). Key achievements to date include:

1. TMO has a new organisational structure that clearly reflects its functions and includes establishing the Oral Health and Primary Care services directorates, and strengthening clinical governance at the executive level by ensuring the Chief Medical Officer and Chief Nursing Officer roles have a direct advisory role to the Secretary of Health. Mental Health services are also being developed and will be established as a directorate under Community Health Services over the next two to three years. These changes reflect current and medium term strategic priority areas for TMO which include: Combating NCDs, Health security and Protection, and Lead and Succeed (workforce development). Resources are being reallocated to community-based services, focused on keeping people well in the community and improving population health,
2. TMO received an 'unmodified' audit report for the 2017/18 financial year, enabling the ministry to focus on strengthening financial analysis and forecasting with an investment outlook, rather than the traditional cost-based approach to financing,
3. TMO launched the Flying Doctor's Programme in November 2018 to provide primary and secondary health care services in the Pa Enua (other than Aitutaki). The programme will include oral health services, medical specialist services, including referrals to Rarotonga and New Zealand
4. TMO is securing collaborative partnerships with national, regional and international agencies, including health specialists from the Cook Islands diaspora to meet health service delivery gaps and to build the capability of TMO. Arrangements of Cooperation (AOCs) will be signed in the upcoming July annual health conference with the NZ MOH, Waitemata DHB and Dr Joe Williams' GP practice in Auckland,
5. TMO continues to scope funding for the Manava Maori Primary Care Centre of Excellence and a 21st century TMO Hospital to provide more clinically robust evidence-based preventative, diagnostic and treatment services including elective surgery in-country.

14.2 Outputs and Key Deliverables

OUTPUT 1: Public Health

The TMO restructure approved in January 2019 revives a public health output, along with oral health and primary care services. The Public Health output has four key service areas: health protection, public health nursing, health promotion and mental health. Health protection covers environmental health, health security and protection by ensuring border protection, vector, food and water control and sanitation standards are maintained. Public health nurses immunise children and run screening programmes for children at school, and primary care for adults and the elderly. Health promotion lead the implementation of a number of plans such as: the NCD Strategy 2015 – 2019, Integrated National Strategic Plan for Sexual and Reproductive Health, and National Tobacco Control Action Plan. Mental health services are provided in community-based settings and focus on implementing the National Suicide Prevention Plan and National Mental Health Strategy 2016-2020. Mental health services need further development before consideration for a psychiatric ward in hospital settings. TMO will continue to invest in promoting healthier choices and living, and focus on reducing the burden of NCDs.

OUTPUT 2: Oral Health Services

Oral Health provides preventative care in schools for children and primary care for adults, curative surgery and restorative oral health through a dental clinic. The National Oral Health Strategy has four priority areas: 1) Capacity building and strengthening, 2) Infrastructure development and strengthening, 3) Strengthening Oral health governance and 4) Revitalising Primary Oral Health Care Services. Priority 1 will focus on recruiting and training dental assistants, technicians, therapists, dentists and dental specialists. Priority 2 will focus on strengthening building and ICT infrastructure for specialised and referral oral health services with modern equipment and facilities through the Manava Maori Primary Care Centre of Excellence project, including primary care oral health centres in Vaka Takitumu and Vaka Puaikura, and refurbished dental clinics on Rarotonga and the Pa Enuā. Priority 3 focuses on internal restructuring and better organisational management. Priority 4 focuses on strengthening national primary oral health care services.

OUTPUT 3: Primary Care

Primary care will focus on patient-centered care in the community with doctors (general practitioners) trained to meet all the patient's needs through the Manava Maori Centre for Primary Care Excellence. Manava Maori will be a 'one-stop' Centre for primary care services, health education and promotion, public health nursing and the early detection of health issues that can be dealt with regular checkups, and better communication. Primary healthcare is the first level of contact between individuals and families with the health system. These services will be developed over the next 1-2 years, with outpatients and Pa Enuā services being gradually moved away from hospital health services.

OUTPUT 4: Hospital Health Services

The key functions of the Hospital Health Services (HHS) Directorate is to provide a range of health care services within hospital settings. This includes emergency care services, primary, secondary, tertiary, rehabilitative and palliative care and referral to more specialised secondary and tertiary services in New Zealand, including referrals to the community health services directorate. The HHS Directorate is also the entry point for the majority of our Health Specialists Visiting programme. The overall aim of the HHS Directorate is to work towards the long term goal of reducing premature deaths and medium term goal of reducing morbidity rates and ASH rates. The HHS and Community Health settings directorates services will be integrated and efficiently refer patients between service areas regardless of directorate. The HHS Directorate also supports Pharmaceutical and Laboratory services which are the two most expensive ongoing costs to the TMO budget. Having strong clinical governance overseeing these two services is critical to minimising wastage and keeping costs under control.

15 Infrastructure Cook Islands

Te Tango Angaanga o te Kuki Airani

15.1 Introduction

Infrastructure Cook Islands (ICI) will continue to strive for excellence towards achieving its overall objectives and key deliverables every financial year. Through team work and embracing our stakeholders we continue to improve our performance to the best of our abilities. Second year into our ICI Strategic Plan for the next 5 years to guide our direction and priorities. We are grateful for the ongoing support from our Minister and both internal and external stakeholders in assisting us to deliver our services to the people of the Cook Islands. In this 2018/2019 financial year ICI will focus on strengthening our mandates and existence through the development and enactment of the Public Infrastructure Bill which governs our roles and functions in the Cook Islands. Furthermore, ICI would like to strengthen its working relationship and improve our coordination with the Pa Enea Island Government. This strategic move will enable effective and timely delivery of technical support and capital project aspirations in the Pa Enea. The role of the Ministry is to be an effective and efficient manager of infrastructure that is interpreted under its legal ambit for the economic and social benefit of the people of the Cook Islands; for sustainable development that is conducive to the context of the Cook Islands but in line with International codes, standards, and technology.

Vision

ICI's vision is "To ensure premier Infrastructure development to meet the needs and aspirations of the people of the Cook Islands".

ICI's mission is:

1. To ensure fit-for-purpose infrastructure giving value to all and inspiring confidence in ICI from the people and communities of the Cook islands, the government and its agencies, the private sector, development partners, and traditional leaders.
2. To work collaboratively with all stakeholders to ensure that sustainable, safe and resilient infrastructure is provided in a manner that can be managed, maintained and where necessary, renewed using available national resources.
3. To develop and apply effective programme management and regulatory services to infrastructure development.

Functions Ceased/Removed

The WATSAN division will now be renamed as Waste Management Division. The Sanitation component of the division was transferred to Mei Te Vai Kite Vai under Te Mato Vai in 2017. Now the Water component of WATSAN will be transferred to the Water Authority called To Tatou Vai. The Waste component will remain with ICI and therefore be branded under a new division called Waste Management Division.

The function of Water Works will be transferred to To Tatou Vai including some of the current staff will go through a recruitment process to determine their placement with the new Water Authority.

17 Ministry of Justice

Te Tango Tutara o te Ture

17.1 Introduction

Te Tango Tutara o te Ture, known as the Ministry of Justice ("the Ministry"), occupies a unique position within the structures of government. Unlike the majority of government ministries, it has functions and responsibilities across both the judicial and executive arms of government. Its judicial functions and responsibilities include maintaining an efficient and effective independent judiciary, ensuring proper administration of our land system, providing registry services in a number of crucial areas, and upholding and enhancing respect for the rule of law and the principles of good governance. The Ministry does this through the administration of the courts, and the provision of technical support to the judiciary. Its executive functions and responsibilities includes the development and implementation of policies giving effect to government plans for the law and order sector. It also includes having effective and efficient systems in place, and accurate and trusted registers that are accessible to the public.

The Ministry effectively works with the Judiciary to administer all the courts in the Cook Islands that are presided over by Judges or Justices of the Peace, the Coroner's Court and any Coroner Inquests, and the Lease Approval Tribunal. The technical and legal expertise of the Ministry ensures the efficient and effective administration of justice in all islands of the Cook Islands. The Ministry ensures the proper documentation of land ownership and administers land trust funds. Furthermore, the Ministry oversees the Births, Deaths, and Marriages registries, the Companies registry, the Incorporated Societies registry, the personal property securities registry, and the electoral roll in accordance with governing legislation.

Vision

For a safe, secure, just and fair society with trusted land management and information and register systems.

Agency Mandate & Functions

The Ministry of Justice has three primary functions that benefit from synergies being in the same Ministry, and supported by the secondary function of corporate services.

The Judiciary with Courts and Tribunals comprise one of the three branches of government that, in accordance with published government policy, applies the law. All Cook Islands legislation that involves offenses and the court processes would require Ministry of Justice resourcing. The courts and tribunals include, the High Court whether it is presided by one Justice of the Peace, a panel of three Justices of the Peace, or Judge(s) and can touch upon criminal, civil, or land matters, the Court of Appeal, the Lease Approval Tribunal, the Coroner's Court, and Children's Court.

The Land Administration division ensures land registry and survey records are managed and land trust funds are disbursed to land owners.

The Registry Services division maintains the births and deaths registry, marriage registry, list of officiating ministers and marriage celebrants, companies registry, incorporated societies registry, personal property securities registry, and the electoral roll.

The Corporate Services division provides Finance, IT, HR, and other support for the Ministry of Justice.

Functions Ceased/Removed

The functions of Prison Services and Probation Services have been removed from the Ministry of Justice and moved to the new Ministry of Corrective Services ("MOCS"). As of the end of March 2019, certain legislation, including the Prisons Act 1967, Criminal Justice Act 1967, and Prevention of Juvenile Crimes Act, are yet to be amended to account for the removal of functions. MOCS has its own budget in the 2019-20 financial year. Probation offices have been moved from the Ministry of Justice building in early 2019, and the Secretary of MOCS has operational control over those Prison Services and Probation Services.

Significant Achievements & Milestones

The Ministry of Justice has had a challenging year during 2018-19 with restructuring. The position of Secretary had been vacant and filled in an acting capacity from early 2018 until a new Secretary was appointed for a three year term beginning December 2018. A new Ministry of Corrective Services ("MOCS") was created and both Probation Services and Prison Services have been moved into MOCS on an operational level. With a Ministry Workforce Plan and new organizational structure approved in March 2019, the Ministry of Justice is restructuring positions and applying additional financial resources to attract and retain qualified staff. As part of its restructure, the Ministry of Justice undertook to review all job descriptions.

A Capacity Assessment on the Ministry of Justice was conducted in 2016 and published in 2017, which highlighted challenges for the Ministry related to under resourcing. Addressing the recommendations from the Capacity Assessment will continue into the next financial year.

The Justices of the Peace Amendment Act 2019 is expected to be passed in Parliament by 30 June 2019, which will assist in addressing the limited pool of Justices of the Peace whom may formally sit in court hearings.

18 Ministry of Marine Resources

Tu'anga ote Pae Moana

18.1 Introduction

The Ministry of Marine Resources was established in 1984 to provide for the conservation, management, exploitation, development and sustainable use of the living and non-living resources in the Cook Islands fishery waters, and in accordance with the Marine Resources Act 2005 and the Ministry of Marine Resources Act 1984, for the benefit of the people of the Cook Islands. The Ministry of Marine Resources' role is primarily technical, administrative, and advisory and to provide monitoring and scientific services relating to development projects involving Cook Islands marine resources. Its programmes are closely coordinated with other Government agencies, including outer Island administrations and authorities and their communities.

Vision

Ensuring excellent stewardship of our marine resources.

The Ministry's new Vision embodies the concept of 'stewardship' which represents responsible planning and management of resources. It confirms that the Ministry of Marine Resources (MMR) will serve as a guardian of our marine resources. The words 'ensuring' and 'excellence' are action words that will set the standards that MMR aims to reach. We will 'ensure' that we support the sustainability of our marine resources for the benefit of our people. Excellence means having in place, clear and measurable standards, systems and processes that are transparent and will allow us to deliver on this Vision.

Significant Achievements & Milestones

1. Completion of the Offshore Fisheries Monitoring, Control and Surveillance Gap Analysis - work to implement recommendations to be undertaken in FY19/20 onwards.
2. Significant scientific monitoring and survey work undertaken to inform development of island lagoon management plans/policies.
3. Maintained services with Acting Secretary in place for 11 months.
4. achieved unqualified audit report for FY2016/17

19 Office of the Ombudsman

Te Mato Akamoeau

19.1 Introduction

The Ombudsman is an independent and Impartial officer of and responsible to the Parliament of the Cook Islands. It is mandated to investigate complaints of general maladministration against government ministries under the Ombudsman Act 1984. It is further tasked to investigate complaints under the Disability Act 2008, Official Information Act 2008 and the Police Act 2012.

Vision

Vision: To promote fairness for all.

Mission

- The Ombudsman conducts independent and impartial investigations initiated upon receipt of complaints or acting on his own initiative
- The Ombudsman endeavours to strike a fair balance between what the public expects from government services and government that provides these services.
- The Ombudsman's objective is to develop a public service culture which upholds fairness; fosters dedication and commitment; promotes openness and accountability taking into account our Cook Islands Cultural Values.

Significant Achievements & Milestones

The Ombudsman Bill 2019 is now in the process of being tabled to Parliament. This work has been a culmination of a partnership with the New Zealand Ombudsman team in conjunction with the Parliamentary Counsel Office. The office successfully conducted its Rarotonga public awareness program with presentations carried out in the 3 Vaka as well as the Nikao Oire. The office conducted a specific in-house training for Parliament staff on handling an Official Information Act (OIA) request. The investigation team has launched its first systemic review on the social welfare system and is in the process of finalizing its report, which will be tabled to Parliament. The investigation team has completed its investigation into an OIA complaint against the Ministry of Transport. This will also be tabled at the next Parliamentary sitting. The office has connected with the New Zealand Independent Police Complaints Authority who will assist the office in setting up its complaints process and assist with training police.

20 Office of the Prime Minister

Kōutu Mana Tutara o te Ipukarea

20.1 Introduction

The Office of the Prime Minister supports the Prime Minister and Cabinet to ensure that the government of the day meets its obligations for sound governance of the Cook Islands. It is responsible for implementing sound processes and policy advice on the national sustainable development goals and the direction of the Cook Islands. As a central agency it contributes to the delivery of core services by line agencies. The OPM has added responsibilities for building resilience to the effects of climate change and sustainable energy.

Vision

"Turanga tukatau, 'akaterere'anga tau' e te matutu".

"A well governed, resilient and secure Cook Islands".

Significant Achievements & Milestones

The following have been the most significant achievements for the Office of the Prime Minister (OPM) over the first six months of 2018-19 financial year.

- Producing the second National Sustainable Development Plan Indicator Report (2017) which will help the government, private sector, civil societies and the local communities to understand how we are tracking and where we need to make improvements
- Endorsement of the medium term budget priority goals as part of the National Medium Term Fiscal Strategy (2019/20 – 2023/24)
- Completion of the Northern Renewable Energy project and significant progress in the Southern Renewable Energy projects, which will be completed
- The Cook Islands becoming the first Pacific Islands country to be directly accredited to the Green Climate Fund (GCF) and initial rollout for a \$NZD3 million Adaptation Fund project—Pa Enea Action for Resilient Livelihoods (PEARL)
- Supporting and active participation in the Manatua Consortium to progress the procurement process and the legislative framework

OVERVIEW

25 Cook Islands Seabed Minerals

Runanga Takere Moana

25.1 Introduction

The role of the agency is to implement the Seabed Minerals Act, as directed by the Government, in order to develop and mature the Seabed Minerals sector of the Cook Islands, for the benefit of the people of the Cook Islands.

Vision

The overarching vision of the Seabed Minerals Authority (the Authority) is to-

- implement the Seabed Minerals Act, as directed by the Government, in order to develop and mature the Seabed Minerals sector of the Cook Islands,
- maximise the benefit of our national seabed minerals resources for the Cook Islands people while also considering the interests of our investment and development partners involved in our seabed minerals sector,
- in harmony with the principles of, and in collaboration with Marae Moana Act 2017 and other stakeholders;
- While complying with the NSDP and other national development plans, strategies and policies.

Vision

In 2019/20, the Seabed Minerals Authority has a vision:

- For the steady and efficient development of the Seabed Minerals sector of the Cook Islands and the benefit for the Cook Islands people and its various stakeholders and investment partners.
- To build beneficial relationships with communities, states, investment partners, donors and other agencies so that the people of the Cook Islands are receiving maximum long-term benefits from the sustainable development and utilisation of Seabed Minerals sector.
- To continue to develop relationships with industry to attract investment to the Cook Islands Seabed Minerals sector, regarding the unique and valuable seabed mineral resources in and under the jurisdiction of the Cook Islands, both inside and outside our Exclusive Economic Zone (EEZ).
- To continue to capacity-build Cook Islands people to take leadership roles in our national seabed minerals sector, being focused on encouraging enrolment in tertiary and further studies and endeavors that can lead to improved knowledge attained by Cook Islanders on how best to manage and control our seabed minerals resources.

25.2.1 Staffing Resources

26 Cook Islands Tourism Corporation

Ta'anga o te Pae Turoto

26.1 Introduction

To encourage and promote the development of tourism in the Cook Islands as such manner as will achieve sustained growth, and in a manner which is economically viable, socially acceptable and environmentally sustainable.

Vision

Tourism advances the well-being of resident Cook Islanders.

Mission To ensure Cook Islanders benefit from Tourism economically, socially and that we sustain our environment and culture, through relentless pursuit of our goals.

Significant Achievements & Milestones

ECONOMIC CONTRIBUTION OF THE TOURISM SECTOR IN 2017/18

- Increase in Visitor Arrivals from 155,230 in 2016/17 to 163,835 in 2017/18, a difference of 8,605 visitors (+6%).
- The latest International Visitor Survey (IVS) to September 2018 show in increase in visitor expenditure from \$1,906 (3Q 2017) to \$2,124 per person (3Q 2018). This was mainly due to the increase of 'on-island' spend from \$138 to \$165 per person per day, which exclude prepaid expenses before travelling to the Cook Islands.
- Equates to approximately 72,282 additional room nights and incremental economic spend of \$17.3 million (Increase in visitors = 8,605 x average length of stay 8.4 nights x average daily spend \$240)

DESTINATION MARKETING

- Increase in global website reach resulting in 775,964 new users (Mar18-Mar19) an increase of 35.3% from the previous year delivering the destination brand to the world across all markets
- Increase in leads, 299,396 unique clicks, an increase of 47% direct leads to airline partners and direct leads to over 200 Accredited Tourism Industry members.
- Developed social media as a critical marketing tool to deliver on awareness and facilitate conversation peaking at 527,917 (Mar18-Mar19) Facebook page likes an increase of 53% from previous year.
- Expanded emerging market strategy to align with future airline access and routes to now include South America (Brazil, Argentina, Chile)
- Expanded market reach in European Markets to now include additional countries: Latvia, Estonia (UK/Nordic) Czech Republic, Poland, Slovenia (Northern Europe) and Portugal (Southern Europe).

DESTINATION DEVELOPMENT

- Launch of the Cook Islands Tourism Community Attitudes Towards Tourism Survey in September 2018 reaching approximately 7% of the total population of the country. Over 900 completed surveys were collated by the end of the survey period to a range of questions exploring the relationships between community and tourism from a number of perspectives including economic, cultural, environmental, and in terms of quality of life.

- Increased cruise ship visits and cruise ship passengers to the Cook Islands, from 6274 passengers who disembarked in 2017, to 9232 disembarking in 2018 (Calendar Year). And cruise ship calls increasing from 16 in 2017 to 26 in 2018 (again Calendar Year).
- Kia Orana Values Project - Kia Orana Values campaign continued through presentations and visitations by the Kia Orana Ambassadors in 2017/2018 year (54 Kia Orana Values presentations to over 1000 attendees, 48 Kia Orana television commercial runs, 300+ radio advertisements over the FY)
- Continued support for the Kia Orana Customer Service Course which has seen over 2000 graduates so far. In 2017/18 fifty businesses and organizations put their staff through the course. With 214 graduates from the course over the financial year from two islands, Rarotonga and Aitutaki.
- Community Engagement Programmes have contributed to beautification, renovation, cleaning equipment projects and many other community based initiatives not directly related to tourism. A number of community initiatives positively impacting issues affecting tourism include neighborhood watch and animal clinics who have received rewards from these programmes. Vaka Pride (Rarotonga), Te Vaka O Ru (Aitutaki), and Ie o te Orau (Mauke) community projects, bringing multiple stakeholders together to address issues outside of Tourism impacting the industry. Expanded the Vaka Pride Committee to include the Ministry of Cultural Development, National Council of Women and the Office of the Prime Minister. This indicate wider stakeholder engagement and the recognition of managing destination issues more effectively.
- 5th year of CI Quality Assured (Accreditation Scheme) with 175 members on Rarotonga, 26 members in Aitutaki, 8 members in Atiu and one in Mangaia and one in Manihiki
- 7th Year of the International Visitor Survey - Continuation of the online survey in collaboration with New Zealand Tourism Research Institute - 3427 respondents in the 2017/18 FY surveys covering 6753 adults and 1059 children
- Presented the first scorecards and indicators report for the Cook Islands Sustainable Tourism Goals & Framework (2018/19).
- Launch of the Takurua programme to highlight the importance of traditional and authentic cuisine that is unique to the Cook Islands and its heritage
- Completed a cave diving scoping report for Nga –Pu –Toru to develop a tourism niche market on these islands (Atiu, Mauke, Mitiaro) around Cave Diving, to increase dispersal and tourism reach to the Pa Enuu.

FINANCE, HR & AUDIT

- Obtained an unqualified auditor's opinion on the Cook Islands Tourism Corporation's financial statements as at 30 June 2018 and the first time the Corporation had 'zero' Audit Management Issues. This is the 8th year of obtaining unqualified reports since 2010.

27 Ministry of Transport

Te Mana Tumotu o te Kuki Airani

27.1 Introduction

The National vision according to the Te Kaveinga Nui is "to enjoy the highest quality of life consistent with the aspirations of our people, and in harmony with our culture and environment". Translated as "Te oraanga tu rangatira kia tau ki te anoano o te iti tangata, akia tau ki to tatou peu Maori e te aotini taporoporoi o te basileia".

Goal 6 of the NSDP is to improve access to affordable, reliable, sustainable, modern energy and transport. In particular to promote regular and reliable transport as defined by Indicator 6 - Transport Connectivity Index. The purpose of the Ministry of Transport is to create and maintain a safe, predictable and cost-effective environment for users of aviation, maritime and road transport operators, customers and travelers.

Therefore the Ministry of Transport assesses the frequency of domestic air and shipping services against benchmarked standards. We aspire to improve transport services between our islands to ensure that all people in the Cook Islands have adequate and reliable transport via shipping and air links. These links are crucial to enhance the economic viability of the Pa Enua and connect our Cook Islands community.

Vision

The Ministry's vision is "Safe and Secure Management of our land, sea and air". The Ministry of Transport is committed to ensuring the safe and secure operation of all aircrafts, vessels, vehicles, weather reporting activities and administration regardless of size, nature of operation and location, surrounding, and above the Cook Islands. This includes a safe and secure environment.

Significant Achievements & Milestones

The biggest achievement for the ministry is the unmodified audit report for the period 2017-18 in compliance with audit requirements. Secondly, the compliance of Air Rarotonga's new SAAB 340B into Cook Islands aviation industry increasing the capacity to the Pa Enua and international connections. The ministry has filled the position of compliance manager with Rei Enoka former Dangerous Goods Inspector from Internal Affairs. The consultancy of the Maritime Technical Manager Saungaki Rasmussen former Harbourmaster with Ports Authority on contract until May 2019. His contribution to the ministry is invaluable through commitment and utilizing his experience and work ethics.

The ministry has strengthened its reporting and monitoring system to capture accidents, incidents and mishaps in the transport industry. For example, failure of Air Rarotonga E5-TAK engine on departure from Aitutaki. The death of a US national on-board the Dutch vessel MS MAASDAM, Cook Islands Flag vessel run over fishing boat (with no casualties) in Denmark, and a vessel aground in Indonesia.

The ministry is strengthening agency collaboration and consultation with the transport industry and Pa Enua, that is the Ministry and Taio shipping to remove MV Moana Nui from Nassau reef commencing this year. An agreement between MoT, and Taio Shipping in consultation with CLO is being drafted. The grounding of a yacht "Gubby" in Manihiki has been removed successfully.

The ministry continues its collaboration and updates to International Civil Aviation Organisation (ICAO), International Maritime Organisation (IMO) and World Meteorological Organisation standards and recommended practices.

Overall safety to aviation industry, maritime industry, person and property (Meteorological perspective) has been achieved without loss of life or casualties (except the MS MAASDAM incident) during this period.

Significant challenges to the ministry is to implement the Capacity Assessment and the Performance Evaluation Review with recommendations. Unbudgeted expenses to operational costs due to commitment of activities are monitored closely and reported to MFEM to avoid over-run on monthly budget. The ministry has been cost effective to meet those unbudgeted expenses.

27.2 Outputs and Key Deliverables

OUTPUT 1: Civil Aviation (Taka o te Rangī)

The Ministry of Transport through its Civil Aviation Division works with industry groups to reach consensus on international civil aviation Standards and Recommended Practices (SARPs) and policies in support of a safe, efficient, secure, economically sustainable and environmentally responsible civil aviation sector. These SARPs and policies are used by the Cook Islands to ensure that local and international civil aviation operations and regulations conform to global norms, which in turn permits more than 100,000 daily flights in aviation's global network to operate safely and reliably in every region of the world. This division includes the Pa Enea as part of its safety responsibility.

OUTPUT 2: Maritime Division (Taka o te Moana)

The Maritime sector is administered by the Ministry of Transport on behalf of the Cook Islands Government. This is to ensure the industry operates safely and efficiently in compliance with international and national laws and any risk or threat to the industry does not impact on the safety of people, the marine environment, port

security or the reputation of the Cook Islands. "All persons in the Cook Islands, no matter where they live; in the Pa Enea or Rarotonga, are entitled to equal access to safe, sustainable and affordable maritime transport for themselves, their anau and their cargoes". The Ministry will implement international mandatory requirements as well as support the actions recommended of its Maritime Transport policy. The ministry will continue to establish systems for the safety, security and protection of the environment for all stakeholders within the maritime sector.

27.3 Staffing Resources

28 Aitutaki Island Government

28.1 Introduction

Aitutaki Island Government role is as follows. Implementation of government policies, leadership and maintaining effective relationships with all relevant stakeholders. Provide quality public services in areas of Infrastructure, Water, Waste Management, Agriculture, Women's and Youth projects, and Economic development. Administering Community Service through partnership with the Island Council members. Applying good employer principles under the Public Service Act and implementing actions to promote an effective communication and adherence to the Public Service values and code of conduct.

Vision

For all people on Aitutaki to enjoy an improved quality of life, to prosper through the sustainable management of our natural resources, and our commitment to service for all.

Significant Achievements & Milestones

The Aitutaki Island Government Achievements to report for the year 2018/2019.

- Road sealing project completed. An estimated 24km road was proposed in the project, however upon completion, over 40km of sealed road was completed. The success of this project was a joint effort between Ministry of Infrastructure, Ministry of Finance and Economic Management, Aitutaki Island Government and Office of the Prime Minister.
- Aitutaki Island Council continued to carry out its responsibility during this year. Relationship between Council and Aitutaki Island Administration was very close. Many community projects were done during this year. An island project for cleaning and cutting of trees that stood out as a threat to homes during the hurricane season was implemented and carried out. Operation Dengue was done on the island in response to a suspected outbreak in the Nation. Precaution measures was carried out in cooperation with the department of health and the community.
- Water works and maintenance on all 7 water galleries on the island were carried out successfully. The work demand on this department is very high and there is a shortage of workers. However, during this year the department have performed far and beyond their fair share of work. A department that lacks recognition for their good works but deserves to be mentioned during this year.
- Agriculture Division performed well during this year. Bio security have improved and more support is provided in this area to minimize risk involved. Almost 2 container ships arrive to Aitutaki each month, an average of 25 to 30 containers per ship were inspected and cleared during the year. A total of over 550 containers cleared during this year. Ministry of Agriculture is helping the department with capacity building and training was carried out in Rarotonga during mid-year. Part of their responsibility is clearing yachts and tourist boats which have increased in the past year.
- Hireage of Machinery to the public was carried out effectively during the year. There was a lot of demand from the private and public sector to assist in clearing of lands for building of homes for families wanting to come back to Aitutaki for settlement.
- Collecting of Rubbish, solid waste, recycles and sanitation was carried out effectively during this year.

32.3 Staffing Resources

33 Mitiaro Island Government

33.1 Introduction

The Mitiaro Island Government is established under the Island Government Act 2012- 2013 tabled in parliament by the Office of the Prime Minister and operates under the provisions of the Act, with its main function being; ‘to provide good, efficient and effective governance for the island in relation to those responsibilities conferred upon it by or pursuant to the Act, and any other law’.

Some of the main functions are to:

- act in the public (Island Community) interest;
- pursue policies that are consistent with the National Government policies;
- deliver public facilities and services in the best interests of the island’s community, and on behalf of national Government

The provision of the Act has thus conferred the responsibility of governance of individual islands on to the elected members of the Island Government – namely the Island Council

To this effect, the Island Government is slowly progressing well towards managing the affairs of the island and towards achieving their goals and fulfilling their responsibilities to the community and the National Government, and is responsible for six (6) Outputs. These Outputs are the core operational mechanism of the Island Government

A summary of these Outputs are outlined below:

Output 1: Island Government Administration: Responsible for the effective management the Island Government financial resource and a timely submission of financial reports to MFEM.

Output 2: Island Council: Responsible for the provision of effective governance to meet the aspirations of its community

Output 3: Social and Economic Development: Responsible for the effective development of Social and Economic opportunities with particular emphasis on developing/promoting programs to assist and improve social and gender issues and to promote economic development

Output 4: Infrastructure: To maintain the infrastructure systems that will continue to provide the services the community desired

Output 5: Energy: Responsible for the provision for a reliable and affordable energy (electricity) supply to the Community,

Output 6: Agriculture: Responsible for the provision of advice to the community about Food Security issues, and Economic opportunities in agricultural production."

Vision

Vibrant and Caring - Turanga maroiroi, matutu, mate ngakau tauturu e te aroa.

The Vision of the Mitiaro Island Government is defined by its Values and Goals as stated in the Mitiaro Island Government’s Community Sustainable Development Plan (CSDP 2012-2017)

The values are to:

1. encourage our leaders and the community to change their way of thinking and allow for open discussions and problem solving
2. ensure ample opportunities for our people to participate in decision making

3. work to accept differences in religious beliefs, personality and personal opinions, cultural beliefs as well as lifestyle
4. facilitate equity of opportunity and of access to the island's resources; namely to target and utilize resources in a way that is fair according to the needs of the people
5. encourage and help people to be responsible for meeting their own needs as well as the needs of their families and community
6. be aware of the importance of conserving our environment while developing our island
7. Promote partnerships between the community, non-government organizations, the private sector and the Island Government.

Significant Achievements & Milestones

35.3 Staffing Resources

36 Pukapuka/Nassau Island Government

36.1 Introduction

The Pukapuka/ Nassau Island Administration is responsible for the following:

- To provide Administration and Management support to the Pukapuka/ Nassau Island Government.
- Perform all administrative and management duties adhering to good governance and employer/ employee relationship principles.
- To provide and ensure accurate and timely reporting of all finance related obligations to Government as set out in the agreed and signed MOU with MFEM.

Vision

“Te Wenua ke Malanga” is a significant phrase in which the spirit and the aspirations of our people are entrenched in. It is the continuous need for improvement to quality of life and the driving force behind this present Administration’s vision and that is;

- To help our people achieve the best levels of self-development possible, to do the best we can do and be the best we can be.
- To promote, strengthen and realise our cultural, social, economic, infrastructural and environmental ambitions and be efficient and autonomously sustainable with all of them.
- To forge strong mutually beneficial working relationships with our Sister Outer Islands, the Private Sector, Donor Partners, Clients, other Stakeholders and Government, having in mind our best interests, with the aim of helping us achieve our aspirations as set out in our Community Strategic Development Plan and the Government’s National Strategic Development Plan.

And only in partnership with Government and a collaborative effort from all sectors right across the board, can Pukapuka/Nassau Island Administration aim to, step by step, achieve this vision.
