

SMART Agritech Scheme

Performance, as at 31 May 2021

Background

The SMART Agritech Scheme (**AGRITECH**) is a measure under Phase II of the Government's COVID-19 Economic Response Plan. The objective of this grant is to encourage and support the agricultural industry and agribusinesses servicing the industry to develop and implement innovative solutions to assist with transformational change within agricultural value chains by improving yields, efficiency and profitability. There are three categories of AgriTech grants available, Seed Grants for research, demonstration and investigation and Commercial Grants, Exceptional Circumstance Grants.

AGRITECH employs a competitive 2-stage application process. Applications are assessed at each stage by the AGRITECH Panel, with MFEM providing secretariat services. The Panel members comprise:

- TeMarama Aunguna, Head of Ministry, Ministry of Agriculture;
- Eve Hayden – Chief Executive Officer, Chamber of Commerce; and
- Repeta Puna – Chief Executive Officer, Business Trade and Investment Board.

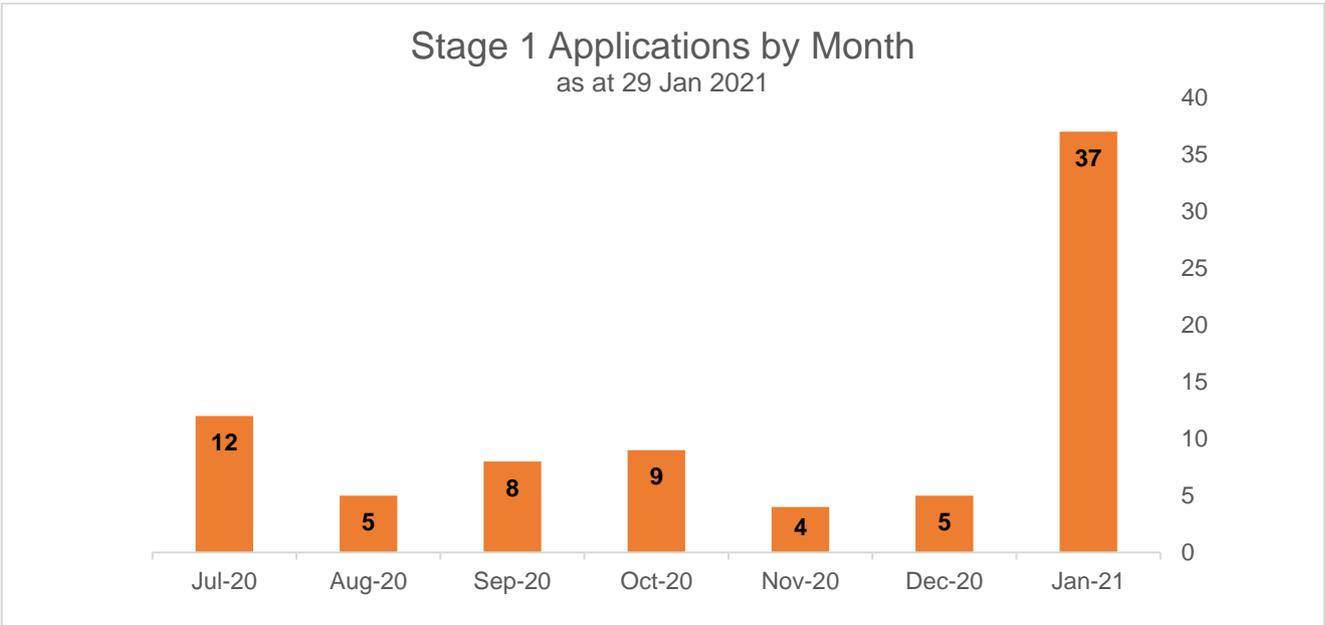

Applicants have to demonstrate, to the satisfaction of the Panel, innovation, business viability, broader economic benefits for the Cook Islands, as well as providing co-funding of at least 20 per cent. They also have to compete with other applicants for a contested pool of scarce funds.

AGRITECH commenced in July 2020, and **Stage 1 applications closed on 29 January 2021** (see media release on the [MFEM Facebook](#)) as the initiative approached full subscription.

Stage 1 applications

Over the period from July 2020 to 29 January 2021, a total of 80 Stage 1 applications were received, with a total grant value request of \$6.8 million. As of 22 February 2021, all Stage 1 applications have been assessed, with 23 (29 per cent) approved to proceed to the Stage 2 process, with a total grant value request of \$2.1 million.

Stage 1 applications	#	Grant request (\$m)
Received	80	\$6.8
Approved to Stage 2	23	\$2.1
Stage 1 approval rate	29%	31%

Stage 1 applications showed an uneven distribution, with an initial peak in the first month of the initiative opening, with 15 per cent of total applications received in July 2020, followed by a drop to 6 per cent in the second month and a large spike in the final month, with 46 per cent received.

ERP PHASE II: TRANSFORMATION

Last chance: SMART Initiatives funding applications close this month

The Ministry of Finance and Economic Management (MFEM) advises would-be applicants that both SMART Economy and SMART Agritech funding applications close on Friday 29th January 2021.

The SMART Economy Initiative provides a mix of grants and tax credits to support new commercial business ventures providing innovative ICT applications and services to business and consumers in the Cook Islands and abroad.

SMART Agritech grants provide grant funding to support investment in smart, productivity-enhancing agritech and equipment to improve the commercial viability of agricultural businesses and the economic sustainability of the agricultural sector.

Applications for both SMART initiatives follow a three-step process that helps guide applicants toward a successful outcome and ensure Government funding is invested wisely. MFEM has received 54 applications for SMART Economy funding and 38 for SMART Agritech funding since applications opened in July last year.

Commenting on the SMART Initiatives progress to date, MFEM Financial Secretary Garth Henderson says he is pleased with the response:

“To-date we have approved 23 grant applications, 16 for SMART Economy initiatives and 7 for SMART Agritech, and we have received 6 additional Stage 2 applications for review. So far we’ve approved **\$1.7 million** of Government support to be invested in a broad range of innovative new business and agritech ventures. This is on top of the corresponding private investment made by applicants as part of their grant funding agreements.”

“This significant injection of funding will help transform our economy to become more dynamic, complex and diverse – this will in turn make our country more resilient to changing circumstances and economic shocks.”

The \$76 million Covid-19 Economic Response Plan is designed to provide comprehensive financial support for local businesses and to sustain livelihoods in the short term and onwards, propelling the country towards a post-COVID-19 future. The SMART grant initiatives are designed to work alongside other measures to create a more robust and stronger economy.

If you intend to apply for SMART funding you must submit your application by **4pm on Friday 29th January** to have your application considered. Please contact MFEM if you have any questions:

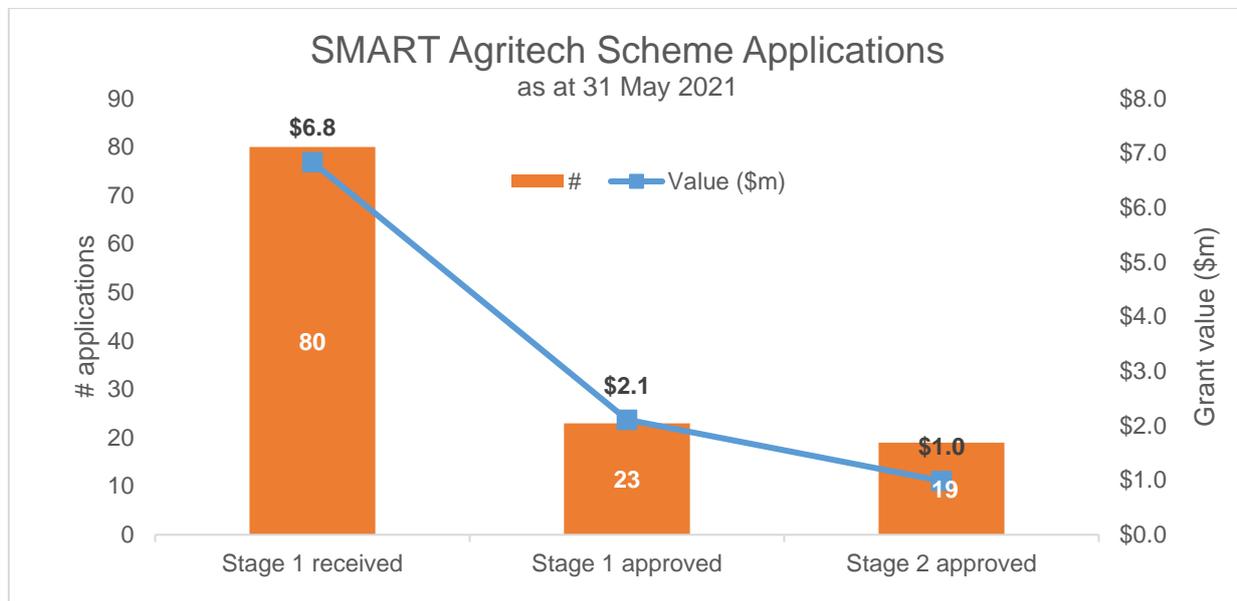

For more information on SMART Economy grants, please contact **Ian Hayes** at mfem.economics@cookislands.gov.ck

For more information on SMART Agritech grants, please contact **Lafala Turepu** at mfem.economics@cookislands.gov.ck

Stage 2 applications

As at 31 May 2021, 23 Stage 2 applications have been received, with 19 approved for AgriTech grant funding varying between commercial and exceptional grants, with a total grant value of \$1.0 million. Individual grants range from \$6,000 to the maximum \$125,000, with an average grant of \$51,970. Own contributions (direct & in-kind) range from \$1,000 to \$171,000, with an average own contribution of about \$54,710.

Majority, 42 per cent, of successful applicants are small businesses (<\$300,000 per annum) with 32 per cent representing medium businesses (\$300,000 to \$5 million) and the remainder classified as micro business.

Stage 2 Media Releases

Media releases are progressively published as the successful Stage 2 applicants commence the implementation phase of their AgriTech business ventures. The following releases have been published as at 31 May 2021:

- [Ootu Aquaponics](#)
- [Cook Islands Tea Factory](#)
- [Moringa Cook Islands](#)
- [Funky Produce](#)
- [Mao Veges](#)
- [Good Way Farm](#)
- [Jungle Farm](#)
